

Example of Cost Savings

Mary's doctor at MHG Physician Clinic prescribes two (2) formulary brand prescriptions for her every month; She usually gets them from the big box store pharmacy where she shops.

Both drugs are formulary brands and her copay at a regular retail pharmacy is \$20.00 per month.

Formulary Brand # 1- \$20 copay/12 times per year= \$240

Formulary Brand # 2- \$20 copay/12 times per year = \$240

TOTAL COST: \$480.00

Since her doctor is a MHG employed provider, Mary could use an enhanced pharmacy for added saving and also save time, if she gets 90 days of each prescription.

Formulary Brand # 1- \$15 copay/4 times per year= \$15.00 x 4 = \$60.00

Formulary Brand # 2 -\$15 copay/4 times per year = \$15.00 x 4= \$60.00

TOTAL COST: \$120.00

In one (1) year Mary would save **\$360.00** on just two (2) prescriptions (\$480.00-\$120.00= \$360.00)

Regular Retail Pharmacy Copay (i.e., CVS, Walgreens, Walmart)

Generic	\$10.00
Formulary Brand	\$20.00
Non-Formulary Brand	\$35.00
Specialty/Injectable	\$100.00

later*

Enhanced Pharmacy Program

Do you take prescription drugs regularly or even just occasionally?

Do you want to know how you can put more dollars in your pocket?

It does not matter if you have to fill a prescription every now and then, or every month.

Select Administrative Services, the Third Party Administrator for our health insurance plan has partnered with **Memorial Hospital** to offer, you, our employee access to an “**Enhanced Pharmacy Program.**”

The Enhanced Pharmacy Program will allow you, to realize *significant cost savings* when purchasing prescription drugs.

What is the Catch?

The prescription **MUST** be written by a **Memorial Hospital** employed **physician or Nurse Practitioner**

The prescription **MUST** be filled at one of the local participating enhanced pharmacies listed below:
